REASONS FOR ALLOWANCE***Response to Amendment***

Applicant's amendments (see Remarks Pg. 6, filed May 30, 2007), with respect to Claims 1 and 10 have been fully considered and are considered to put the application in condition for allowance. The rejection of previously rejected claims 1-3 and 5-13 has been withdrawn. Claim 14 had previously been objected to as being dependent on a rejected independent claim, but would have been allowable if rewritten in independent form. The Applicant has added the limitations of claim 14 to both independent claims 1 and 10 (corresponding apparatus and method claims), and as such, claims 1-3 and 5-13 are now considered allowable over the prior art. Please see the reasons for allowance set forth below.

Allowable Subject Matter

Claims 1-3 and 5-13 are allowed.

The following is an examiner's statement of reasons for allowance:

In regard to both **claims 1 and 10**, the prior art was not found to teach or reasonably suggest, in combination with all of the limitations of claims 1 and 10, a pixel defect testing apparatus and method wherein a pixel defect determination is made during a high-speed reading operation, and in parallel with a defect test on a pixel unit, a predetermined test signal is inputted to other circuits on the same chip and a defect test on the other circuits on the same chip is performed.

As for **claims 2, 3, 5-9, and 11-13**, these claims depend from allowable claims 1 and 10, and are thus considered to be allowable over the prior art for the reasons given above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
